

# Product data sheet

## RWA K 600 T

Retractable arm drive for air intake systems for installation at doors

### Product features

90° door opening in less than 60 seconds
Powerful drive with high torque
Connection cable easy to replace by means of plug
Integrated status contact for electric strike control unit or feedback signals
Door remains freely accessible due to the freely positioned activation of the lever by means of a pressure roller

### Application Areas

Use in the supply air system where large opening angles are required
Single and double leaf smoke and heat extraction fresh air doors
Installation on the hinge or opposite hinge side

### Product Data Table

Productname	RWA K 600 T
Height	56 mm
Current consumption	1.4 A
Residual ripple (max.)	20 %
Duty rating	30 %
Connection cable length	5 m
Special length of power supply cable	10 m
Cable dimensions	5 Stk. 0.5 mm <sup>2</sup>
Temperature range	-5 °C - 75 °C
IP rating / protection rating	IP32 / III
Tandem function	Yes
Syncro function	Yes
Adjustable opening speed (ventilation)	Yes
Additional locking available	Yes
Type of additional locking	Locking drive
End position cut-off extended	Internal path sensor
End position cut-off retracted	Internal path sensor
Overload cut-off	Yes
Synchronisation (max.)	2 drives
