See next Page for Models

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: UL 325 and CSA C22.2 No. 247-14, Door, Drapery, Gate, Louver and Window Operators and Systems

Additional Information: See the UL Online Certifications Directory at www.ul.com/database for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark:

Recognized components are identified by a unique identification number or designation for each component. This identification number or designation is used to identify the component in the UL Directory. The identification number or designation is also used to identify the component in the UL Online Certifications Directory. The identification number or designation is also used to identify the component in the UL Component Recognition Program. The identification number or designation is also used to identify the component in the UL Component Recognition Program.
